Congratulations and Thank You!

Thanks for taking the time to complete the **#1 Dead Lead Killer Assessment**.

And **Congratulations!** Because with this information in your hands, you are well on your way to creating more revenue stability, eliminating sales pipeline leakage, and getting closer to your financial goals.

Hi — I'm **David Olaniyi**, Founder of **STRATAVIN LLC** and creator of this assessment.

Over the past decade, as our team has helped business owners grow their sales revenue and convert un-dialed pipeline into closed cash, I noticed there were **4 main Dead Lead Killers** inhibiting people's chances of achieving their full financial potential:

1. **The Sleeping Dragon (Cold Database 6–24 Months Old)**
2. **The 48-Hour Cliff (Leads Abandoned by Sales Reps After Day 2)**
3. **The Vanishing Ghost (Middle-of-Funnel Proposal & Quote Ghosting)**
4. **The Growth Incubator (Early-Stage List Under 1,000 Contacts)**

That led me down the path of creating this assessment, so you can get instant clarity about **YOUR #1 Dead Lead Killer**... and how to overcome it and move forward.

So let's get right to your results!

Your #1 Dead Lead Killer

"The Sleeping Dragon"

SLEEPING DRAGON

48-HOUR CLIFF

VANISHING GHOST

GROWTH INCUBATOR

Based on the information you've shared and the little I know about you and your sales situation, the "#1 Dead Lead Killer" that's holding you back from your revenue goals is what's known as "SD" or "The Sleeping Dragon".

What having **The Sleeping Dragon** in your CRM means is very straightforward:

You have **1,000 or more past contacts, old quote requests, or unconverted leads** sitting dormant inside your CRM, spreadsheets, or email database from the last 6 to 24 months.

When these leads originally enquired, your team called them a few times over 48 hours. When they didn't answer or buy immediately, your team moved on to fresh leads and wrote them off as "dead."

As a result, you are sitting on an un-extracted goldmine of people who had genuine buying intent, but got busy, got distracted, or simply weren't ready to buy on Day 1.

Here's What That Means...

The Sleeping Dragon means your business has accumulated a large number of leads over the months and years — people who at some point showed genuine interest in what you offer.

They Were Never Dead — They Were Just Sleeping

You paid to acquire them. You spent marketing budget, ad spend, time, or all three to get those people into your CRM. And the moment your team stopped calling — usually within 2 to 3 days — that investment was written off.

The Sleeping Dragon is the single biggest source of untapped, already-paid-for revenue in any business that generates inbound leads.

The Real Reason They Didn't Buy

Most of those leads didn't respond because **they were busy, not because they weren't interested**. Research consistently shows that the average lead needs 5 to 8 touchpoints before responding.

The problem isn't that the lead said no. The problem is the business gave up before the lead had a chance to say yes.

Common "Sleeping Dragon" Mistakes & Pitfalls

The single biggest mistake business owners make when dealing with The Sleeping Dragon is assuming that because a lead didn't buy 6 months ago, they are "dead forever."

Most businesses either do nothing at all (letting thousands of dollars sit idle), or blast their database with generic spammy email newsletters that get deleted unread.

THE MATH OF YOUR HIDDEN CRM CASH

Cold Leads Sitting in CRM:	2,000 Leads
Modest AI Reactivation Rate (2% - 5%):	40 to 100 Re-Engaged Buyers
Average Deal Profit (\$1,500):	\$1,500 / deal
UN-COLLECTED CRM CASH POTENTIAL:	\$60,000.00 – \$150,000.00

While you continue spending \$40 to \$100+ for every new ad lead on Facebook or Google, your existing CRM is leaking massive profit every single day!

Here's What You Can Do About It

Thankfully, your Sleeping Dragon is not a lost cause — it's a gold mine that nobody has touched yet!

One of the most effective quick wins you can test right now is sending what we call the **17-Word "Prince Charming" Text**.

Pick 50 of your oldest leads today and text them this exact 17-word message:

 COPY & PASTE 17-WORD PRINCE CHARMING TEXT SCRIPT:

"Hi [First_Name], it's David from STRATAVIN LLC. Is this still the same [First_Name] who enquired about [Service/Product] a while back?"

Why this script works:

1. **Reads 100% personal:** It is informal, conversational, and non-salesy.
2. **High curiosity:** Prospects assume a friend is texting them from their personal phone and reply immediately.
3. **Massive re-engagement:** Between 15% and 40% of written-off leads respond within minutes.

Your Next Steps

Now you might be wondering:

"How do I send these messages, manage two-way conversations, answer questions, and book calls for 1,000+ leads without driving my team crazy?"

This is where **David Olaniyi & the STRATAVIN LLC team** come in.

We install our **Done-For-You (DFY) 24/7 AI Revenue Engine** directly into your GoHighLevel or CRM database:

OUR 100% PERFORMANCE GUARANTEE:

- **\$0 Setup Fee** for initial qualifying performance pilots.
- **\$0 Monthly Retainer** for your initial pilot deployment.
- **100% Performance Basis:** We only take a performance share on closed deals generated from your dead leads.
