Congratulations and Thank You!

Thanks for taking the time to complete the **#1 Dead Lead Killer Assessment**.

And **Congratulations!** Because with this information in your hands, you are well on your way to creating more revenue stability, eliminating sales pipeline leakage, and getting closer to your financial goals.

Hi — I'm **David Olaniyi**, Founder of **STRATAVIN LLC** and creator of this assessment.

Over the past decade, as our team has helped business owners grow their sales revenue and convert un-dialed pipeline into closed cash, I noticed there were **4 main Dead Lead Killers** inhibiting people's chances of achieving their full financial potential:

1. The Sleeping Dragon (Cold Database 6–24 Months Old)
2. The 48-Hour Cliff (Leads Abandoned by Sales Reps After Day 2)
3. The Vanishing Ghost (Middle-of-Funnel Proposal & Quote Ghosting)
4. The Growth Incubator (Early-Stage List Under 1,000 Contacts)

That led me down the path of creating this assessment, so you can get instant clarity about **YOUR #1 Dead Lead Killer**... and how to overcome it and move forward.

So let's get right to your results!

Your #1 Dead Lead Killer

"The 48-Hour Cliff"

SLEEPING DRAGON

48-HOUR CLIFF

VANISHING GHOST

GROWTH INCUBATOR

Based on the information you've shared and the little I know about you and your sales situation, the "#1 Dead Lead Killer" that's holding you back from your revenue goals is what's known as "48H" or the "48-Hour Cliff".

What being on **The 48-Hour Cliff** means for your business is very specific:

Your sales team works new leads hard for the first 24 to 48 hours. They dial them 2 or 3 times, send an initial email, and try to get them on the phone.

However, if the prospect doesn't answer or book a call by Day 2, your reps stop calling. Because new leads are constantly pouring in off your ads, your reps naturally prioritize fresh leads and abandon 3-day-old leads.

As a result, over 70% of your paid ad leads fall right off the "48-Hour Cliff" and sit completely un-contacted from Day 3 onwards.

Here's What That Means...

What that means is when it comes to managing your sales pipeline, you may often find yourself stuck in a painful place where ad spend keeps rising, but revenue plateaus.

Rep Call Fatigue & Speed-to-Lead Pressure

This shows up as rep call fatigue where sales reps make 6 to 9 dial attempts in the first 48 hours. When nobody picks up, reps feel burned out and conclude that calling isn't working.

Because reps are constantly required to hit 5-minute speed-to-lead on today's new leads, they physically do not have the time or bandwidth to manually call leads from last week.

The Channel Disconnect

Here is the fundamental insight: when a sales team dials a lead nine times over two days and gets no answer, they walk away assuming the lead is dead.

In reality, the prospect isn't dead — they simply don't pick up unknown phone calls during business hours! The same prospect who ignored 9 phone calls in two days will often reply to a single, well-crafted 2-way SMS within 15 minutes because text feels personal and non-intrusive.

The mistake isn't that your team stopped trying after 48 hours. The mistake is that they stopped trying using the wrong communication channel.

Common "48-Hour Cliff" Mistakes & Pitfalls

One of the big mistakes business owners make when experiencing "48-Hour Cliff" as their primary dead lead killer is assuming that unreached leads "aren't interested" or blaming sales reps for being lazy.

Industry sales benchmarks prove that 80% of sales require between **5 to 12 touchpoints over 14 days** to convert.

THE MATH OF YOUR ABANDONED PIPELINE

Monthly Ad Lead Volume:	300 Leads / month
Leads Abandoned After Day 2 (70%):	210 Leads / month (2,520 / yr)
Delayed AI Recovery Rate (3%):	75 Recovered Deals
Average Deal Profit (\$1,500):	\$1,500 / deal
ANNUAL LOST PIPELINE PROFIT:	\$113,400.00 / year

You are literally paying Facebook and Google for leads, only to throw 70% of them away after 48 hours simply because no one is working your pipeline from Day 3 to Day 14!

Here's What You Can Do About It

Thankfully, there are simple and practical steps you can take to stop leads from falling off the cliff today.

A powerful quick win you can implement manually right now is what we call the **Day 3 "Takeover Text"**.

For any lead that your sales reps haven't reached after 48 hours, send this exact 21-word SMS manually on Day 3:

 COPY & PASTE DAY 3 TAKEOVER TEXT SCRIPT:

"Hi [First_Name], it's David from STRATAVIN LLC following up on [Service]. I know you've been super busy this week! Are you still looking to solve [Pain Point] this month?"

Why this script works:

1. **Acknowledges busy schedules:** It removes guilt and friction without sounding like a pushy sales pitch.
2. **Reopens 2-way dialogue:** It asks a simple binary question ('Are you still looking to solve X?') that takes 3 seconds to reply to.
3. **High response rate:** Over 35% of 3-day-old leads reply within 30 minutes.

Your Next Steps

Now you might be wondering:

"How can my team execute a multi-channel 14-day follow-up sequence for every lead after 48 hours without overwhelming my sales reps?"

This is where **David Olaniyi & the STRATAVIN LLC team** come in.
