Congratulations and Thank You!

Thanks for taking the time to complete the **#1 Dead Lead Killer Assessment**.

Hi — I'm **David Olaniyi**, Founder of **STRATAVIN LLC** and creator of this assessment.

Over the past decade, we've helped business owners revive ghosted deals and reclaim lost revenue sitting stranded in their sales pipeline.

1. The Sleeping Dragon (Cold Database 6–24 Months Old)
2. The 48-Hour Cliff (Leads Abandoned by Sales Reps After Day 2)
3. **The Vanishing Ghost (Middle-of-Funnel Proposal & Quote Ghosting)**
4. The Growth Incubator (Early-Stage List Under 1,000 Contacts)

Let me walk you through your exact diagnostic results for **The Vanishing Ghost**.

Your #1 Dead Lead Killer

"The Vanishing Ghost"

SLEEPING DRAGON

48-HOUR CLIFF

VANISHING GHOST

GROWTH INCUBATOR

Based on your assessment, your single biggest dead lead killer is "VG" or "The Vanishing Ghost" — prospects who attended an initial demo, received a custom quote, and then vanished into complete radio silence.

What having **The Vanishing Ghost** in your pipeline means:

Your sales team invests significant effort doing discovery calls, preparing proposals, and answering initial questions. The prospect seems enthusiastic, says *"Send me the details!"*, and then suddenly stops answering texts and emails.

Because reps send 1 or 2 polite check-ins ("Just checking in!") and get no reply, they assume the deal is lost and move on, leaving thousands in revenue stranded on the 1-yard line.

Here's What That Means...

Ghosting happens at the worst possible stage: middle of funnel, after you have already paid for the lead AND invested expensive sales rep time.

Why Prospects Ghost

Prospects don't ghost because they hate your offer. They ghost because of **friction, timing, price anxiety, or internal confusion** that they feel awkward bringing up to a sales rep.

The Flaw in "Just Checking In"

Sending "Just checking in to see if you reviewed the proposal" puts pressure on the prospect without providing value. The prospect feels guilty for delaying, so they ignore the message entirely.

You don't need more aggressive sales calls. You need intelligent, low-friction 2-way SMS follow-up that uncovers the hidden objection.

Common "Vanishing Ghost" Mistakes & Pitfalls

The biggest mistake is letting stalled proposals sit open in your pipeline past 14 days without an automated re-engagement mechanism.

THE MATH OF YOUR GHOSTED PROPOSALS

Ghosted Proposals per Month:	30 Prospects
Modest AI Recovery Rate (20%):	6 Closed Deals / mo (72 / yr)
Average Deal Profit (\$1,500):	\$1,500 / deal
ANNUAL LOST GHOSTED PROFIT:	\$9,000 / mo (\$108,000.00 / year)

Recovering just 6 ghosted proposals a month yields an additional \$108,000 in pure profit without spending a single extra dollar on ads!

Here's What You Can Do About It

A simple and powerful script to revive ghosted proposals is the **Magic 9-Word Ghost Buster Text**.

Send this exact text to any prospect who hasn't replied to a quote in 7 days:

 COPY & PASTE MAGIC 9-WORD GHOST BUSTER SCRIPT:

```
"Hi [First_Name], it's David from STRATAVIN LLC. Have you given up on  
[Project/Service]?"
```

Why this script works:

1. **Triggers Loss Aversion:** Human psychology hates giving up on something they expressed interest in.
2. **Removes Pressure:** It allows them to reply with a simple 'No, just been busy!' within seconds.
3. **Immediate Clarity:** Over 40% of ghosted prospects respond immediately to clarify their status.
